## PROMOTING FAMILY-CENTERED CARE

### New Resources

- **Family-Centered Care for Children with Special Health Care Needs**

This publication defines and discusses eight key elements of a family-centered approach to health care for children with special health needs. Examples of programs and policies that illustrate a family-centered approach are presented. Checklists for assessing family-centered services and policies in hospitals, communities, and states are included. (74 pp, \$5.00) ■■■■

- **Family-Centered Care: What Does it Mean?**

This brochure presents the key elements of family-centered care, includes a checklist for states, and lists organizations that can provide assistance in implementing a family-centered approach to care. (free upon request) ■■■■

- **Parent Resource Directory**

This directory lists more than 160 parents of children with special health needs across the United States and Canada. The directory is organized by state and province and includes information on the parents' skills, interests and experiences in promoting a family-centered approach to health care. A second edition of the directory will be published in the Winter. (89 pp., \$3.00) ■■■■

- **ACCH Network**

This quarterly newsletter focuses on chronic illness and disabling conditions in childhood. Specific programs, new resources and publications, the perspectives of parents and professionals, and legislative, research, and advocacy issues are highlighted. (12 pp, free upon request) ■■■■
